

## ZNB-XD Infusion Pump

Three-step Approach

Easy to Use

Model	ZNB-XD
Pumping Mechanism	Curvilinear peristaltic
IV Sets	Compatible with IV sets of any standard
Flow Rate	1~1100 ml/h
Accuracy	Dedicated IV sets: $\pm 3\%$ ; Standard IV sets: $\pm 5\%$
Volume	1~9999 ml
KVO Rate	4 ml/h
Alarms	Occlusion, air-in-line, door open, end program, low pressure
Additional Features	Real-time shift totals, automatic power switching, mute button, bolus, system malfunction
Air-in-Line Detection	Ultrasonic detector
Infusion Management System (nurse call)	Optional
Power Supply, AC	110/230 VAC, 50/60 Hz, 20 VA
Battery	9.6V $\pm$ 1.6V, Rechargeable
Battery Life	3 hours at the 30 ml/h
Working Temperature	10-40°C
Relative Humidity	30-75%
Atmospheric Pressure	700-1060 hpa
Size	174*126*215 mm
Weight	2.5 kg
Safety Classification	Class I, type CF
